Minutes from September 10 meeting, 7:30, Plumbers and Pipefitters Hall.

Meeting called to order 7:45 by Chairman Jim Morrisette. Michael Yarrow of the Citizens Coalition to Defeat Reagan spoke on the efforts of his group to register and mobilize voters in an effort to deny Reagan another term. He told us of the tremendous gains made in voter registration and in alignment of various diverse groups toward a common goal, and expressed hopes that the friendships formed could remain after the election as a means of community mobilization. A massive door-to-door campaign is also planned for October.

Discussion followed concerning the Machinist strike at the Emerson ~~Elec~~ plant on Aurora Street in Ithaca involving 391 workers. The Coalition pledged support for the Machinists pending discussion with their union representatives concerning the best form for that support to take. A resolution was adopted pledging total support and worker solidarity with our brothers and sisters on the picket line.

The Clever Hans workers are at present involved in unfair labor practice hearings, and Chairman Jim Morrisette suggested that we convey to the owners that fair treatment of their workers could ~~xx~~ lead to the Coalition's endorsement of them as the only public bakery in Ithaca and add to their business.

Sue Schlaepfer reported on the continuing saga of the Ithaca Teachers, who are working without a contract, forgoing a job action for the sake of the children, and asked for support from individual members of the Coalition, in the form of postcards or letters to the editor. Mike Cohen read off the initial draft of the runaway shop legislation, including twelve months' notice of closing and a written impact statement for the community. A more complete form will be available at the October meeting. A committee was formed to proceed with our proposed Labor Education program, composed of Mike Cohen, Skye Milliman, and a teacher to be named later. This committee will begin to pull in resources, with full gearing up planned for the time following the November election. Some comments were made on the great spirit and relative success of the Labor Day Rally, which, though damp, was inspiring and well-covered by the media.
