THE TOMPKINS-CORTLAND JOINT LABOR COALIATION

11/18/84

Dear Friend,

I want to thank you, both for myself and on behalf of the Labor Coalition, for your participation at the November 13 meeting between labor leaders and government representatives. I personally felt the meeting was an historic event, fueled with genuine interest and concern, and creating a climate of hope and vision for the future.

Let's not allow the spirt of November 13 fade away. Rather, we should all tap this spirt to help realize concrete gains for the Ithaca teachers, the TC3 adjunct faculty, the Clever Hans workers, the Building Trades, and the entire working community in Ithaca.

By working together good people can direct their own destiny. The November 13 meeting was a good start toward creating an atmosphere free of cynicism, posturing or bad faith. A business community which respects the needs and reflects the aspirations of the local residents, a work force which is proud, secure and free, and government leaders who are sensitive to all legitimate interests and dedicated to a just society - this is the vison we need to cultivate together.

See you at the next meeting.

In Solidarity,

Jim Morrissette, Chair
